APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application,
and do hereby grant the same, subject to the following limitations and
conditions: This permit is issued subject to all existing rights on the
source and is limited to what the well will produce but not to exceed
3.0 c.f.s. If well is flowing, a valve must be installed and maintained
to prevent waste. It is understood that this right must allow for a
reasonable lowering of the static water level at permittees well due to
other ground water development in the area. This source is located
within an area designated by the State Engineer pursuant to Section 4 of
the 1939 Ground-Water Act (Chap. 178, Stats. 1939 as amended); therefore
the State retains the right to regulate the use of the water herein
granted at any and all times.

The amount of water to be appropriated shall be limited to the amount
which can be applied to beneficial use, and not to exceed 3.0

cubic feet per second, and not to exceed 1000 acre-feet per annum on 200
acres of land.

Actual construction work shall begin on or before September 17, 1953

Proof of commencement of work shall be filed before October 17, 1953

Work must be prosecuted with reasonable diligence and be completed on or
before September 17, 1954

Proof of completion of work shall be filed before October 17, 1954

Application of water to beneficial use shall be made on or before

September 17, 1956. Proof of the application of water to beneficial

use must be filed with State Engineer on or before October 17, 1956
